Preliminary Information

Whichever IAT you do, we will ask you (optionally) to report your attitudes toward or beliefs about these topics, and provide some general information about yourself. These demonstrations should be more valuable if you have also tried to describe your self-understanding of the characteristic that the IAT is designed to measure. Also, we would like to compare possible differences among groups in their IAT performance and opinions, at least among those who decide to participate.

Data exchanged with this site are protected by SSL encryption, and no personally identifying information is collected. IP addresses are routinely recorded, but are completely confidential.

Important disclaimer: In reporting to you results of any IAT test that you take, we will mention possible interpretations that have a basis in research done (at the University of Washington, University of Virginia, Harvard University, and Yale University) with these tests. However, these Universities, as well as the individual researchers who have contributed to this site, make no claim for the validity of these suggested interpretations. If you are unprepared to encounter interpretations that you might find objectionable, please do not proceed further. You may prefer to examine [general information about the IAT](#) before deciding whether or not to proceed.

I am aware of the possibility of encountering interpretations of my IAT test performance with which I may not agree. Knowing this, **I wish to proceed**

3. Then, select at least 1 test to take:

- Age IAT** *Age ('Young - Old' IAT).* This IAT requires the ability to distinguish old from young faces. This test often indicates that Americans have automatic preference for young over old.
- Religion IAT** *Religion ('Religions' IAT).* This IAT requires some familiarity with religious terms from various world religions.
- Weapons IAT** *Weapons ('Weapons - Harmless Objects' IAT).* This IAT requires the ability to recognize White and Black faces, and images of weapons or harmless objects.
- Native IAT** *Native American ('Native - White American' IAT).* This IAT requires the ability to recognize White and Native American faces in either classic or modern dress, and the names of places that are either American or Foreign in origin.
- Skin-tone IAT** *Skin-tone ('Light Skin - Dark Skin' IAT).* This IAT requires the ability to recognize light and dark-skinned faces. It often reveals an automatic preference for light-skin relative to dark-skin.
- Asian IAT** *Asian American ('Asian - European American' IAT).* This IAT requires the ability to recognize White and Asian-American faces, and images of places that are either American or Foreign in origin.
- Gender-Science IAT** *Gender - Science.* This IAT often reveals a relative link between liberal arts and females and between science and males.
